

What is Cointopay Autonomy?

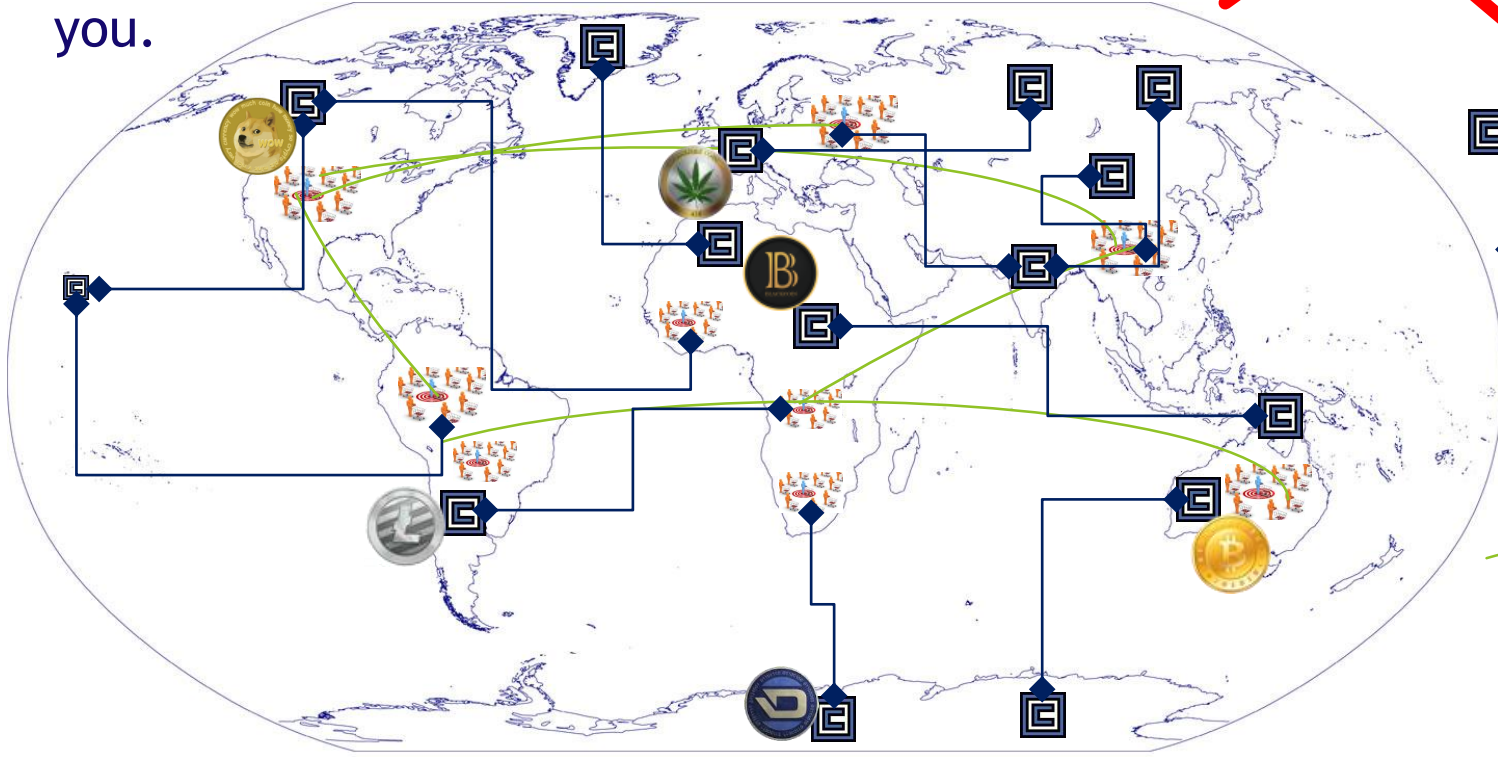

A functional overview

Autonomy enables you to become your own payment provider

Due to its decentralized nature you can run your financial “empire” from
anywhere across the globe

Decentralized Finance. Decentralization means you.

- Autonomy (e.g. crypto wallet)
- Interconnecting financial hubs
- The People

Old Limited Wire Transfer options

“No more centralized power, one world, one nation of the people, one global financial system owned by you and everyone else.” - CEO of Cointopay

In a nutshell

- ▶ Everyone including the unbanked can create and utilize a wallet
- ▶ Merchants can run wallets all over the place
- ▶ Multiple crypto currencies can be used, no discrimination: #CoinofChoice!
- ▶ Everyone can setup their own Autonomy wallet, anywhere (Internet connectivity and electric power are mandatory..)
- ▶ Choose Secure Cloud, Managed Wallet or Self-Hosted and via our manuals run your own financial HUB
- ▶ Partnerships are available

“In 2018 everyone will be paying and receiving via Satoshi Nakamoto Crypto Ledger based Software. We owe Satoshi much more than people can understand right now.” - CEO of Cointopay
